

Softex Email Hosting Solutions

Anti-spam configuration tutorials

If you are an IT Manager and you are hosting your corporate emails with Softex software House. In some cases you are receiving a lot of spam and you need to find a way to fight it and prevent the emails from reaching your email boxes. Here are some techniques you can use to fight this spam off.

First you need to Login to your Control panel

Then choose Account level filtering.

Now you create a new filter

 **Edit Filters for All Mail On Your Account**

In this area you can manage filters for your main account.

Create Filter

Create a New Filter

Current Filters

Generated SpamAssassin Discard Rule	Edit Delete
-------------------------------------	---

- Here you can add multiple rules to match (subjects, addresses, or other parts of message) you can then add multiple actions to take on a message such as to deliver the message to a different address or to discard it.

Create a New Filter for All Mail on Your Account

Please create a filter below. You can add multiple rules to match subjects, addresses, or other parts of the message. You can then add multiple actions to take on a message such as to deliver the message to a different address and then discard it.

Filter Name: Rule 1 ! The filter name cannot contain "Rule #" or "Converted Rule".

The filter name must be unique. If you give the filter the same name as another filter, the previous filter will be overwritten.

Rules

From equals

contains

Actions

Discard Message

[Go Back](#)

After you finish preparing the rules, press Create and all rules will apply on your account

Filter Name: 

The filter name must be unique. If you give the filter the same name as another filter, the previous filter will be overwritten.

Rules

From

contains

spam

Subject

contains

unwanted e-mails

From

and

or

Discard Message

Create

Hint: To filter all mail that SpamAssassin has marked as spam, just choose "Spam Status" and "begins with," then enter "Yes" in the box.

Hint: To filter all mail that SpamAssassin has marked with a spam score of 5.0 or greater, choose "Spam Bar" and "contains," then enter "+++++" in the box. (Note: If you wanted to match a spam score of 4, you would use +++. A spam score of 3 would be ++, etc.)

Go Back

Now you have created rule to filter your incoming e-mails, you can edit or delete the filters or add additional parameters to the filters anytime you need.
